1. The government of the United States is of a limited character, and it is confined to the exercise of powers expressly granted by the constitution, and such as may be necessary and proper for carrying the granted powers into full execu-tion; and that all powers not thus granted or necessarily implied are expressly reserved to the States, respectively, and to the people.

2. The State governments should be held se-

cure in their reserved rights, and the general government sustained in its constitutional powers, and the Union should be revered and watched over as "the palladium of our liberties."

3. That, while struggling freedom everywhere enlists the warmest sympathy of the Whig party, we still adhere to the doctrines of the Father of his Country, as announced in his Farewell Address, of keeping ourselves free from all entangling alliances with foreign countries, and of never quitting our own to stand upon foreign ground. That our mission as a republic is not to propagate our opinions, or impose on other countries our form of government by artifice or force, but to teach by example, and show, by our success, moderation, and justice, the blessings of self-government and the advantages of free in-

4. That where the people make and control the government, they should obey its constitution, laws, and treaties, as they would retain their self-respect and the respect which they claim and will enforce from foreign powers.
5. Government should be conducted upon prin-

ciples of the strictest economy, and revenue sufficient for the expenses thereof, in time-of peace, ought to be mainly derived from a duty on imports, and not from direct taxes; and in levying such duties, sound policy requires a just discrimination, and protection from fraud by specific duties when practicable, whereby suitable encouragement may be assured to American industry, equally to all classes and to all portions of the country.

6. The constitution vests in Congress the power to open and repair harbors, and remove obstruc-tions from navigable rivers; and it is expedient that Congress should exercise that power, whenever such improvements are necessary for the common defence, or for the protection and facility of commerce with foreign nations or among the States; such improvements being, in every instance, national and general in their character.
7. The federal and State governments are parts

of one system, alike necessary for the common prosperity, peace, and security, and ought to be regarded alike with a cordial, habitual, and immovable attachment. Respect for the authority of each, and acquiescence in the constitutional measures of each, are duties required by the plainest considerations of national, of State, and of individual welfare.

8. The series of acts of the 31st Congress commonly known as the Compromise or Adjustment (the act for the recovery of fugitives from labor included) are received and acquiesced in by the Whigs of the United States as a final settlement, in principle and substance, of the subjects to which they relate; and, so far as these acts are concerned, we will maintain them, and insist on their strict enforcement, until time and experience shall demonstrate the necessity of further legislation, to guard against the evasion of the laws on the one hand, and the abuse of their powers on the other-not impairing their present efficiency to carry out the requirements of the constitution; and we deprecate all further agitation of the questions thus settled, as dangerous to our peace, and will discountenance all efforts to continue or renew such agitation, whenever, wherever, or however made; and we will maintain this settlement as essential to the nationality
of the Whig party and the integrity of the Union.
J. G. CHAPMAN, of Maryland,
President of the Whig National Convention.
R. A. UPTON, of Louisiana,
Secretary of the Whig National Convention.

Byrne,) for the purpose of conducting exclusively the Auction and Commission business in all its varieties. The location is directly upon the great thoroughfare of the city, and upon the open space near the Courte Market; and the advantages arising therefrom are unsurpassed for the sale of every description of merchandise.

chandise.

Personal attention given to sales of Furniture at dwellings; also, Groceries, Boots and Shoes, Dry Goods, Hardware, Fancy Goods, Jeweiry, &c., received at the Auction Room, or judiciously arranged and sold on the premises of the occupant. Real Estate and Stocks disposed of at public r private sale.

E. N. S. has for saveral years assisted at the Trade Sales in Boston, New York, and Philadelphia, and he particularly fibra his services to such as may wish to dispose of Libra-

les and Works of Art.

Consignments are respectfully solicited, and cash advances and whenever required.

Agr Sales of any amount cashed without delay.

E. N. STRATTON, General Auctionser, and 4—dif Peun, avenue and 9th st., south side. ries and Works of Art.

THE LOST SENSES: DEAFNESS AND BLIND-

NESS. By Dr. Kitto.

"This is a work of great interest, from one of the most learned and accomplished writers of the age, revealing the mysteries of the world in which those live who have been deprived of the sense of sight or hearing. Ever since his boyhood, for more than thirty years, Dr. Kitto has passed a life of great activity as a scholar, in a state of the most intense deafness to which any living creature can be subjected. His account of himself, and of his discriminating remarks on the condition of the blind, (James Mitchell, Laura Bridgeman, and others) are replete with profound thought on the interesting phenomenon presented in the progress of their mental training."—Christian Observer.

PULVERIZING. Recently Patented in this Country and Europe." Recently Patented in this Country and Europe. "
COCHRAN'S PLINGSPERICAL QUART CRUSHING AND PULVERSING MAGRIES are now in delity operation for the
inspection of the public, and will be submitted to any reasonable practical tests proposed by partice interested.
These machines, by their simplicity of construction, their
durability, the undoubted principles upon which they oporate, their effective operation and result, are justly entitled
to the consideration of all parties engaged in grinding,
crushing, and Pulverizing Quarts, Iron Ore, Zine, Copper,
and Lead Ores, and all other Ores or Mineral substances.
It is the poculiar feature of the economy of these machines that they are found capable of crushing and pulverizing into the finest powder any amount of Quarts or other
earthy matter, in proportion to the amount of weight or
power applied. The earthy matter is so completely ground
and pulverised, that the Gold may be easily separated, and
subjected to any process of amalgamation that may be recessary.

The machines work and deliver wet or dry, as may be re-

subjected to any process of amalgamation that may be necessary.

The machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being put out of order; nor do they heat any material while being pulverized. They are at once applicable for all purposes of rinding and pulverising, from those required by the Druggist to those of the most extensive operations in California and Australia.

gist to those of the most extensive operations in California and Australia.

These machines are from two to twelve feet in diameter, with balls or spheres from three inches to five feet in diam-ter, each machine weighing from 250 pounds to 20 tons each, and are sold, with the right to use them, at from \$100

any desired amount of power may be used, from the man or horse upward.

The proprietors of this invention solicit examination, and will prove by practical test the vast superiority and comomy of these machines over any other, for cruthing, grinding, or pulserising, hereisofore offered to the public.

These machines may be seen in operation at the foot of South Eighth Street, Williamsburgh, at the large Patent Block and Saw Factory of Meesrs. Burr, Waterman & Confirst street south of Peck Silb Ferry, every day, from 7 to 9 a. m., and from 4 to 6 p. m. For further particulars, apply E. & J. BUSSING & CO.,

32 Cliff street, New York.

Mechanics, Manufacturers, and Inventors.

Mechanics, Manufacturers, and Inventors.

THE Eighth Volume of the SCIENTIFIC AMERICAN commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agricultural—the genius and master-spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The publishers pledge themselves that the future volumes shall at least equal, if not surpass their predecessors. Among the subjects chiefly brought forward and discussed in its columns, are Civil Engineering, Architecture, Rail-roads, Bridges, Arricultural Implements, Manufactures of Metals, Fibrous and Tartile Substances, Machinery for the purpose, Chemical processes, Distilling, Coloring, &c., Steam and Gas Engines, Boilers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Water Wheels, Wind and Grinding Mills Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, Fire Arms, Electricity, Telegraphs, Surgical Instruments, &c., besides Claims of all Patents, Reviews, Notices of New Inventions, American and Foreign. The work is in form for binding, contains several hundred Engfavings, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in its columns, thus making the paper a perfect Mechanical Encyclopedia for future as well as present reference.

Valuable Premiums are offered for the largest list of Subscribers to this Volums. It is published weekly by MUNN & CO., at their Patent Agency Office, 128 Fulton street, New York.

KRAUSER'S PATENT CLOVER-SEED HAR-VESTER
IS BEFORE THE PUBLIC FOR THE FIRST TIME IS REFORE THE PUBLIC FOR THE FIRST TIME

I'S utility is beyond comparison with any other farming
implement now in use. It takes the seed from the field,
leaving the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gathers
from ten to twelve acres per day. The fingers, or teeth,
catch all the heals, the revolving knives cut them off and
throw them back into the box, which will cross a twentyacre field without emptying. The heads are then loaded
into a wagon and taken directly to the mill for cleaning,
thus diminishing the labor three-fourths, and saving all the
seed. This machine comes so low that every farmer will
have it, and pays the manufacturer 300 per cent.

have it, and pays the manufacturer 300 per ed E. WHEELER, Agent for CROSS KETS, WASEINGTON TOWNSEIP, CAMDEN CO., N. J., September 4, 1851.

We, the undersigned, do certify that we have seen Mi Krauser's Patent Clover Harvester in operation, and it has given perfect satisfaction. It has gathered many of the farmers' clover in this neighborhood—it is all that Mr. Krauser and his bills represent it to be. The farmers have given one-half for gathering and threshing.

JAMES D. TIMBERMAN, JOSEPH DEWALD, WILLIAM P. GARREOD.

JOSEPH DEWALD, WILLIAM P. GARREOD.

JOSEPH DEWALD, JOSEPH DEWALD, JOSEPH DEWALD, WILLIAM P. GARREOD.

JOSEPH DEWALD, JOHN F. COOK, JAMES B. COOK, JAMES BRYSON, WILLIAM P. GARWOOD WM. C. NICHOLSON, JAMES COLLINS, CHARLES LEWIS,

Long-A-Comine, October 7, 1861.

This is to certify that Mr. G. J. Naylor has gathered clove off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced sibushels and a half and one peck of seed. I gave him two thirds for gathering and cleaning. I think his machine is first-rate, and answers all the purpose that is intended.

NEHEMIAH NICHOLSON.

The following points out the profitable nature of the

The following points out the profitable nature of the Harvester:

KRAUSER'S PATENT CLOVER-SEED HARVESTER.—
We have conversed with a number of Farmers, and they are
of opinion that there are at least 3,000 acres in each township in Camden or Gloucester county, New Jersey. Admitting there are but 1,000, it is said that each acre will yield
from 1½ to 3 bushels. Reducing it to a certainty of yielding
but 1 bushel per acre, what will it cost to gather and thresh
1,000 acres?

ut 1 bushel per sore, what will it cost to gather and

000 acres?
This Harvester will gather 12 acres per day. At

8 acres per day, it will take 5 harvesters 25 days,
at a cost of.
Threshing...
Incidental expenses... \$150

have found them to agree unanimously with the acovered culation.

Perhaps no invention offers greater inducements for a profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of money could without doubt be realized from the sale of rights in the different States of the Union not yet disposed of. By calling at this effic, it can be demonstrated satisfactorily that men of moderate capital could not choose a better or more money-paying business.

Those who wish to see a model of this celebrated farming implement, and the satisfactory mannerin which it operates, can do so by calling at

E. WHEELERS, can do so by callin

can do so by calling at

Hampton's Vegetable Tincture! COME, LET US REASON TOGETHER.

ORAL TESTIMONY. THOUSANDS feel it a duty to talk to their afflicted friends of the benefit derived from HAMPTON'S VEGETABLE TINCTURE. From day to day we have given the certificates of cures performed on our best-known citizens, and still we have a perfect avalanche of letters pouring in upon us—all, all giving a weight of testimony that must convince the most skeptical. All are invited to call and read for themselves. The letter below is from one of the first mercantile firms. To those who know them, it must carry conviction, and induce many sufferers to give this Tincture a trial:

PORT ROYAL, Va., July 27, 1852.

PORT ROYAL, Va., July 27, 1852.

Mesars. Mortimer & Moubray: Gents: We have again to send an erder for more of your truly wonderful Hampton's Vegetable Tincture. Since it was first tried it has sold without an effort, and we have not seen the first person who has not been greatly benefited by its use. A gentleman of our neighborhood was induced to try the "Tincture" for a violent pulpitation of the heart. He had suffered so much from it that he said he had prayed for death. He had taken but three doses when he assured us he would not take five hundred dollars for the benefit he had derived, and that he should never cease to remember us with gratitude for calling his attention to so valuable a medicine. Yours, truly,

GRAY & PENDLETON. PORT ROTAL, Va., July 27, 1852.

The Whole World, Attention !- Hear him, ye sick, MACHINE FOR CRUSHING, GRINDING, AND and do likewise!!

and do likewise!!

Mesers. Mortimer & Mowbray: Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Sometime during last November I was taken with a very bed and serious cough. I was advised to take Cod-Liver Oil, and did so; but getting no better, I was induced to try your Tincture. I got one bottle, and before I had used it all my cough left me. Permit me also to state that, for the last fifteen years, I have suffered very much from Acute Rheumatism and Vertigo, confining me at times to my bed. I am fully convinced that I owe my present good health to the use of the Tincture, and a kind Providence.

You are, my friends, at liberty to use this as you may think proper; and believe me, yours, very respectfully,
N. B.—I can be seen at any time at the Mayor's office.

THE ALMOST MIRACULOUS CURES made by Hampton's Vegetable Tincture on our most respectable citiesens—men well known and tried—we challenge the world to show anything on record in medicine to equal it. Many to show anything on record in medicine to equal it. Manhundreds who have felt its healing powers bear the same tes

N. B .- I can be seen at any time at the Mayor's

hundreds who have felt its healing powers bear the same testimony.

Messrs. Mortimer & Mowbray: Gents: Last September I was attacked with erysipelas, from which a dreadful ulcer formed on my right leg. Getting better of this, last November I took a deep cold, which led to what my physician told me was bilious pleurisy, which left me with a constant, deeply-sected, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaciated, growing weaker every day, and thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after having tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TINCTURE, and procured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken half the contents of one bottle I felt much improved; and now, having taken but two bottles, my cough and pairs have enterly left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine.

Yours

of suffering!

Were there not real virtue in this wonderful medicine, could it perform the astonishing cures made by it?

NORTHAMFON CO., April 13, 1852.

Messrs. Tyler & Adair: I have been afflicted with Rheumatism, at times, from my twelfth year; I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helpless; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not reat, day or night; I could not move any part of my body without crying with pain; at this time I also tried many remedies, internal and external, without receiving any relief; I was at last advised to try HAMFTON'S VEGETABLE TINCTURE; before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the afflicted, believing it unequalled. Yours, ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N.

REV. VERNON ESKRIDGE, U. S. N.

PORTSMOUTH, (Va.,) Aug. 18, 1851.

Mr. J. E. Boush—Dear Sir: While I am in general opposed to Patent Medicines, cander compels me to state that larve great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family, and in Dyspepsis, loss of appetite, dizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours, VERNON ESKRIDGE, Usandan in the U. S. Navy. i the afflicted as a sale and VERNON ESKRIDGE,

Sep 3—

THOS. A. SCOTT. NOTICE.

Protection from Lightning.

The undersigned, being the duly appointed Agent of Spratt's Electrican and Electro-Metallikess Lightning. Sind-Rom Manufactors, Covingion, Kentucky, begs to offer these superior Rods, of Spiral-twisted, Carbonized Annealed Iron, with Zinc Protectors, and Electro-positive elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-fitted brass-screw connecting joints, an entire new style of metallic (patentee) stachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, (patented,) forming a lock; the whole mounted with a solid platinum sliver point, (patented,) twelve inches long, surrounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of discharging the opposite elements of the most fearful thunderstorm, and embrace the entire perfection of science up to the present time; the whole constituting the most magnificent and perfect silent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets, in discharying the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but slight results, though placed under the same conditions. In fact, they gather and elentify discharge electricity from the almosphere when you would scarcely suspect any being present.

These improvements being secured by double letters patent, you are hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or who are substituting inferior imitations. All agents duly appointed can show their certificates. Have good rods or none.

CHARLES W. HEYDON, Protection from Lightning.

I do hereby certify that I have applied various powerful chemical re-agents to Spratt's Patent Points for Lightning. Rods, and that the results of these experiments convince me that they will resist the action of atmospheric causes, and thereby preserve the extremity sharp—a condition most essential to protection against lightning. The re-agents used in the above experiments were a solution of chloride of sc-dium, (common salt,) acetic acid, sulphuric acid, and hydre-

dium, (common salt.) acetic acid, sulphuric acid, and hydrochioric acid. With the first, there was no action on the metal; with the several acids, there was very slight—a fact sufficient to show that atmospheric influences would have no sensible effect.

JOHN LECONTE, Prof. of Nat. Phil. et Chem.

UNIVERSITY OF GA., October 8, 1850.

The Lightning Conductors of Mr. Spratt, offered to me, are well calculated to perform the office for which they are intended. Yours, truly, Prof. ROBT. PETER.

LEXINGTON, KY., February 20, 1850.

This may certify that I have examined, somewhat critically, James Sprait's Patent Lightning Rods, and that I am of epinion that it is constructed on selentific principles. For combining durability, cheapness, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

7th street, will be promptly attended to; or at GEORGE BELL'S, Alexandria, Va., corner of King and St. Asaph sta

Washington, D. C.

P. W. BROWNING, Proprietor.

equal, and I think superior, to any other rod ever offered for my impaction.

AUGUSTA, (GA.) November 11, 1880.

This will certify that, I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manufactured by Mr. Byratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

A. MEANS,
Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction, are the best 1 have ever seen.

It is to be hoped that the use of these Rods may become general, as an important auxiliary defence against a danger which must be regarded as of ne ordinary magnitude, to which all buildings are liable.

Prof. of Chem. in the University of Louisville.

Louisvilla, January 27, 1851.

All orders left at ANDREW DUFFY'S Stove Manufactory, 7th street, will be promptly attended to; or at GEORGE BELLYS, Alexandria, Va., cornare of King and St. Asands at
